

DeltaSaras
Piping Pvt. Ltd.

An ISO 9001:2015 Certified Company

**We follow the DVS standard
at every stage of our fabrication.**

Fabrication, Services and Supplier of :
**TURNKEY PROJECT SOLUTION
TANKS AND SKID FABRICATION
JOINTING SERVICES**

www.deltasaras.in

DeltaSaras Piping Pvt. Ltd. is a joint venture between Delta Flow and Saras Enterprises, Delta Flow which is established in 2003 and Saras Enterprises in 1994. Both the companies are having a history of doing adequate projects of piping installation and tank fabrication and completing them with gratify, which gives us more than 20 years of experience in this field.

DeltaSaras Piping Pvt. Ltd. is the fastest-growing fabrication, services and supplier firm of leading quality Plastic & Thermoplastic Piping Systems, PP, PPH, HDPE Tanks Manufacturing, Chemical Storage Tanks and installation services.

Our efforts to present a product range synonymous to trust equip us to manage an industry compliant portfolio, which comprises of best quality jointing technology like Socket Fusion, Butt fusion, Electro-fusion, IR-Fusion & BCF, Piping Grid and PP/PPH, HDPE Chemical Tanks. In addition to this, we also offer Pipe Fabrication and Installation Services at sites to our valuable clients.

Valuable guidance of our Directors is the key attribute in our nationwide and international wide presence, their knowledge inspire us to put ambitious attempt and work hard to accomplish the customer demand and gratify according to their need.

Our Team

We have a team of dedicated professionals who spare no effort to anticipate the evolving client needs. Owing to their rigorous market analysis we are able to summarize the thoughts of our valued patronage in the offered product quality that is suitable for harsh working environments, including hot and aggressive mediums, high & cold temperature, and highly corrosive substrates.

Quality Assurance

Quality compliance plays the pivotal role in our sustained growth. It assures our clients that the money invested on our product offerings will pay the benefits for a long time. In order to make sure that our products stand out of the rest, we conduct rigorous quality tests at every stage of production.

Further, we take special consideration to the procured best quality raw material and pay attention to the dimensional accuracy and finishing standards of every product according to IS, DVS.

Infrastructure

We have invested heavily in constantly upgrading our work set up that is fully equipped with high-speed Fabrication technology and latest tools & machinery. Our workshop is located in an industrial area connected to the main 200ft road we have a setup of 5000 sq. ft cover shade equips with all safety features and required machinery and tools for plastic fabrication. The strong belief of our clients in precision engineering equips us to develop a Strong based infrastructure, where we can produce large volumes of tanks with dimensional accuracy.

Further, our fully automated quality testing, warehousing and distribution departments are also an outcome of technological advancements.

TURNKEY PROJECT SOLUTION

PVDF/PPH High Purity Piping

Bromine Transfer Piping

Water Treatment Piping

Effluent Treatment Piping

Utility Piping

Metal Compressed Air Piping

SS Metal Piping Press Technology

Solar Cell Fab
Double Containment Piping

Semi-Conductor Fab Piping

Chemical Distribution Piping

Fume Extraction Ducting

Chilled Water Piping System

TANKS AND SKID FABRICATION

PP / PPH Tanks

HDPE Tanks

PVDF FRP Tanks

Acrylic, Polycarbonate & Transparent PVC Tanks & Flask

Water Treatment Skid

Effluent Treatment Plant Skid

Chemical Filtration Skid

Automation Piping Skid

Filtration Skid

Plastic Piping Fabrication

Customize Elbow Fabrication

Hazardous Chemical Distribution Piping

JOINTING SERVICES

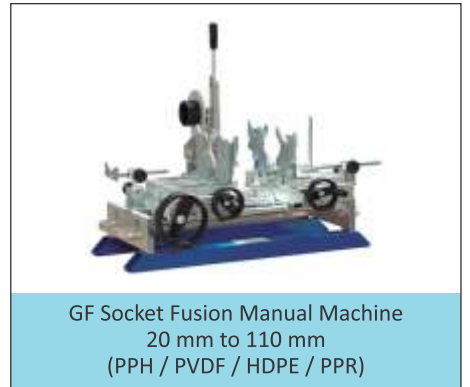

- BUTT FUSION JOINTING
- SOCKET FUSION JOINTING
- ELECTRO FUSION JOINTING
- INFRARED WELDING SERVICES
- SOLVENT CEMENTING SERVICES
- METAL PRESS TECHNOLOGY
- BEAD AND CREVICE FREE FUSION JOINTING
- SHEET WELDING MACHINE

IR Fusion Machine
20 mm to 225 mm
(PPH/PVDF)

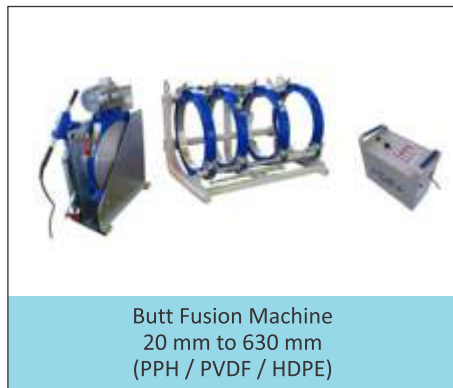

Bead Crevice Free Fusion Machine
20 mm to 110 mm
(PVDF / PP Natural)

GF Socket Fusion Manual Machine
20 mm to 110 mm
(PPH / PVDF / HDPE / PPR)

Electro Fusion Machine
20 mm to 500 mm
(HDPE)

Butt Fusion Machine
20 mm to 630 mm
(PPH / PVDF / HDPE)

Butt Fusion Hydraulic Machine
400 mm to 615 mm
(PPH / PVDF / HDPE)

Hot Air Welding Machine
(CPVC / UPVC / PPH / PVDF / HDPE)

Extrusion Welding Machine
(PPH / PVDF / HDPE)

Sheet Welding Machine

Rocut USK

Pipe Cutter Small

Pipe Cutter Big

We follow the DVS standard at every stage of our fabrication.

SOFTWARE WE USE:

RITA® 4.0 - RÖCHLING'S INTEGRATED TANK BUILDING ASSISTANT™, calculates free standing, pressure less circular and rectangular tanks under consideration of the current guideline IS, DVS 2205.

STOCKIST:

Thermo Plastic Sheets
(PP / PPH / PVDF / HDPE)

Grey Industrial Piping
UPVC / CPVC

Stainless Steel Fit Press
Piping Technology

OUR CLIENTS :

Pharma

Chemicals

Power

Water Treatment

Automobile and other

We follow the DVS standard at every stage of our fabrication.
